Things You Need (Over 2s):

- A big bag full of old named spare clothes (A few pairs of socks, a couple of tops/vests, jumpers, trousers/shorts, and underwear. Additional named clothes may be needed if you child is toilet training).
- Nappy cream to stay at nursery if in a nappy (*not* Weleda or Bepanthen as these contain nuts. We provide nappies and wipes, unless you request otherwise).
- Named wellie boots (ideally to stay at nursery).
- Double socks are a must with normal wellies as these are not very warm in winter. Named waterproof snow boots, fleece lined or neoprene-lined wellies are great and a size bigger is better. (warmwellies.co.uk)
- In the Winter, please could you provide named hat/mittens/scarf/ coat/snood.
- Waterproofs are a must and two sets are even better during winter and wetter months.
  Regatta suits say they are waterproof but they are not waterproof enough for nursery outdoor activities.
  We have found that the rubbery textured (PU coating) waterproof dungarees and coats are fantastic. You can find these in Aldi and Lidl in their special buys. Frugi and Dry kids are another fantastic make (you can usually find on Vinted cheaply) a size bigger is better. When washing waterproofs it's important not to use conditioner or softener as it takes the waterproofing off.
- Lots of named layers are best - you can pick up child thermal layers from Tesco and even Primark have some great fluffy leggings and T-shirts.
- In the Summer, please could you provide a named sun hat. (We provide sun cream, unless you request otherwise).
